About Hafny

Hafny was established by Tony Li in 2012. With over 30 years of experience in product manufacturing and mold design, and 20 years of experience in the bike industry, Tony and his team at Hafny decided it was time to work for ourselves. Hafny believed by being in control of the manufacturing process we would be able to design and innovate our mirrors, grips and pedals better than ever before.

With the idea that our products should be fully recyclable, we first developed the safe and unbreakable stainless steel bike mirror. From there, our designs have evolved to use automotive grade glass on our bike mirrors and we began perfecting our own ergonomic grips and 4D CNC machined pedals with smooth German bearings. All while never sacrificing our environmentally friendly manufacturing practices.

Hafny is located in a small town in the rural west side of Taiwan. We understand that supporting the local community is our responsibility. We are proud to provide local employment opportunities while creating eco-friendly products to keep their environment safe.

Unbreakable Stainless Steel Lens

HF-MR080L/R

Features

- Unbreakable clear stainless steel lens for a safe ride
- Designed for flat handlebar bikes like E-bike, Hybrid, Cruiser
- High-impact durable frame
- Adjustable viewing angles

SPECS

Base	Eco-friendly high impact nylon + fiber
Clamp	Aluminum ED-black
Application	Flat 21~26 mm diameter handlebar
Assembly	Hex key 5 mm
Lens	Stainless steel lens

HF-MR081L/R

Features

- Unbreakable clear stainless steel lens for a safe ride
- Designed for flat handlebar bikes like E-bike, Hybrid, Cruiser
- Reflector on the back to keep your ride safe at night
- High-impact durable frame
- Adjustable viewing angles

SPECS

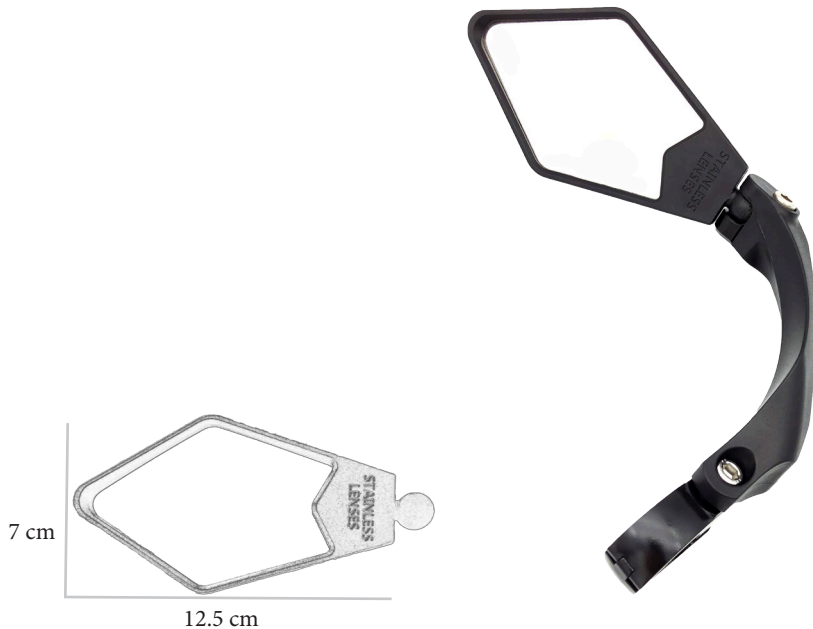

Base	Eco-friendly high impact nylon + fiber
Clamp	Aluminum ED-black
Application	Flat 21~26 mm diameter handlebar
Assembly	Hex key 5 mm
Lens	Stainless steel lens

HF-MR085L/R

Features

- Unbreakable clear stainless steel lens for a safe ride
- Designed for flat handlebar bikes like E-bike, Hybrid, Cruiser
- High-impact durable frame
- Adjustable viewing angles

SPECS

Base	Eco-friendly high impact nylon + fiber
Clamp	Aluminum ED-black
Application	Flat 21~26 mm diameter handlebar
Assembly	Hex key 5 mm
Lens	Stainless steel lens

HF-MR088L/R

Features

- Unbreakable clear stainless steel lens for a safe ride
- Designed for flat handlebar bikes like E-bike, Hybrid, Cruiser
- Reflector on the back to keep your ride safe at night
- High-impact durable frame
- Adjustable viewing angles

NEW

Available in

- Stainless Steel Lens
- HD Automotive Grade Glass
- Anti-glare Blue Lens

SPECS

Base	Eco-friendly high impact nylon + fiber
Clamp	Aluminum ED-black
Application	Flat 21~26 mm diameter handlebar
Assembly	Hex key 5 mm
Lens	Stainless steel / Glass / Blue Glass

HF-MR095 LS / RS Silver HF-MR095 LB / RB Blue

Features

- High definition automotive grade glass lens
- Shatter-proof lens for a safe ride
- Designed for flat handlebar bikes like E-bike, Hybrid, Cruiser
- High-impact durable frame
- Adjustable viewing angles

SPECS

Base	Eco-friendly high impact nylon + fiber
Clamp	Aluminum ED-black
Application	Flat 21~26 mm diameter handlebar
Assembly	Hex key 5 mm
Lens	Silver : Anti-glare lens 50% eliminates of glare in normal conditions Blue : Anti-glare lens 60% eliminates of glare in bright conditions

We've Got Your Back!

HF-MR082

Features

- Unbreakable clear stainless steel lens for a safe ride
- Designed for flat handlebars and drop bars
- High-impact durable frame
- Adjustable viewing angles
- Universal design for both left and right

SPECS

Base	Eco-friendly high impact nylon + fiber
Clamp	Aluminum ED-black
Application	Handlebars inside diameter 14.8-22.5 mm
Assembly	Hex key 5 mm
Lens	Stainless steel lens

HF-MR086

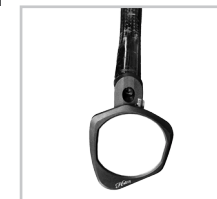

Features

- Unbreakable clear stainless steel lens for a safe ride
- Designed for road bikes
- High-impact durable frame
- Adjustable viewing angles

SPECS

Base	Eco-friendly high impact nylon + fiber
Clamp	Aluminum ED-black
Application	Drop handlebars inside diameter 14.8-22.5 mm
Assembly	Hex key 5 mm
Lens	Stainless steel lens

HF-MR083 (62mm) / HF-MR087 (68mm)

Features

- Unbreakable clear stainless steel lens for a safe ride
- Designed for flat handlebars and drop bars like E-bike, Hybrid, Cruiser
- High-impact durable frame
- Adjustable viewing angles
- Universal design for both left and right

HF-MR083

HF-MR087

SPECS

Base	Eco-friendly high impact nylon + fiber

HD Automotive Grade Glass Lens

HF-MR090S Silver
HF-MR090B Blue

Features

- High definition automotive grade glass lens
- Anti-glare shatter-proof lens for a safe ride
- Designed for flat handlebar bikes like E-bike, Hybrid, Cruiser
- High-impact durable frame
- Adjustable viewing angles
- Universal design for both left and right

SPECS

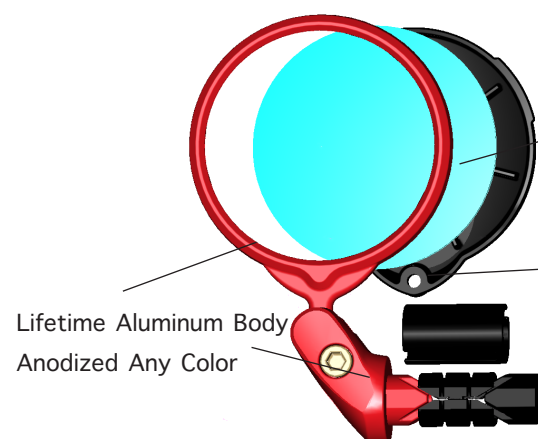

Base	Eco-friendly high impact nylon + fiber
Clamp	Aluminum ED-black
Application	Hex key 5 mm
Assembly	Flat & Drop handlebar inside diameter 14.8-22.5 mm
Lens	Silver : Anti-glare lens 50% eliminates of glare in normal conditions Blue : Anti-glare lens 60% eliminates of glare in bright conditions

HF-MR100 ST/SG/BG **New**

Features

- Genuine eco-friendly lifetime aluminum body
- Three type of lenses options based on your needs
- Multiple adjustable viewing angles
- Easy installation on the bike, and easy replacement for the lens.
- Designed for flat handlebars and drop bars like E-bikes, Cruisers, Road Bikes

Lifetime Aluminum Body
Anodized Any Color

- Choose
- Stainless Steel Lens
 - Automobile Grade Silver Glass
 - Automobile Grade Blue Glass

Simply Replace the Lens with One Screw

HF-MR101 ST/SG/BG **New** Patent

New Era of the Bike Mirror

Genuine Eco-friendly Materials,
Replace the Lens, not the Case.

Durable Nylon+fiber Body

SPECS

Base	Aluminum body (HF-MR100) or Nylon fiber (HF-MR101) with nylon expansion
Application	Flat & Drop handlebar inside diameter 14.8-22.5 mm
Assembly	Hex key 5 mm
Color	Anodized ● ● ● ● ● or any other color
Lens	<ul style="list-style-type: none"> - Stainless steel lens: 62 mm unbreakable during crashes - Silver : 62 mm anti-glare lens 50% eliminates of glare in normal conditions - Blue : 62 mm anti-glare lens 60% eliminates of glare in bright conditions

HF-650

Features

- Comfortable ergonomic grips to prevent numbness during the ride
- Eco-friendly TPR - no plastic odor
- High quality aluminum clamp

HF-652 with Mirror

SPECS

Body	Eco-friendly high impact nylon + fiber
Clamp	Aluminum ED-black
Application	Standard 22 mm diameter handlebar

HF-600

Features

- Ergonomic design to prevent numbness during the ride
- Eco-friendly TPR - no plastic odor
- High quality aluminum clamp

SPECS

Body	Eco-friendly high impact nylon + fiber
Clamp	Aluminum ED-black
Application	Standard 22 mm diameter handlebar

HF-1300

Features

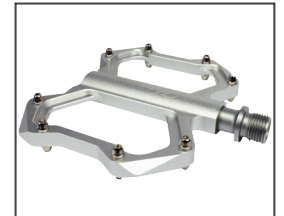

- Light, thin, wide surface
- 4D CNC machined body
- Germany self-lubricating bearings plus sealed ball bearings
- Minimalist design for most of bikes
- Accord with EN17466

In house axle test machine assures that our pedals complies with EN 14766.

SPECS

Body	6061 CNC aluminum
Axle	CNC machined Cro-Mo
Bearing	2 bearings
Size	93x115x8 mm
Weight	152g/pc
Color	  

HF-1000

Features

- 4D CNC machined body
- Germany self-lubricating bearings plus sealed ball bearings
- Reflector for a safe ride
- Replaceable anti-slip
- Accord with EN17466
